## HOW WE SAVE YOU MONEY

We offer business owners reasonably priced support contracts. These agreements include initial assessment & documentation of your business systems. Also, quarterly or monthly visits to ensure the proper safeguards are in place and that your computers and networks are in good working order.

Once you are an established customer, we can handle many scenarios remotely. If you need an onsite visit to resolve issues, you are covered and we will respond quickly.

For residential customers, we offer support contracts, and will also diagnose your computer issues on a carry-in basis for \$30. We will visit your site and diagnose issues for \$60.

- 3 year Warranty on New Computers
- Local Pickup and Delivery Available
- Flat Rate and Hourly
- Reasonable Prices

## TESTIMONIALS

"John has helped me in so many ways. I think that the keyword here is integrity. This, combined with John's vast knowledge of the field - and his ability to determine how it all applies to your own requirements - allows for a high level of service. John's interest and enthusiasm about all endeavors has been terrific. I am certainly very happy with all work undertaken and indeed am most grateful for this assistance."

"John, we are so glad we could get your Techliner Gold Support Service. It's reassuring to have both your support for problems, and your availability for various technical questions. Thanks for explaining so well what you were doing and being patient in answering my questions."

**David, Marlborough**

"I was so satisfied with John Gregory's work, patience and knowledge. I was having a meltdown and he went above and beyond to ensure my needs were met and in a short time frame. I would recommend him to anyone. I tried local big box stores and #800 number helplines and ended up exasperated. It was well worth the investment (totally reasonable price) for peace of mind and I will never feel helpless again with Techliner's support."
